Skomakarnibbå

Skomakarnibbå (The Shoemaker's crag) is a special rock formation above Jøsenfjorden. A hike to Skomakarnibbå is a varied and interesting experience. The trail climbs up to the altitude of 700 meters above sea level, from where there is a magnificent view of the surrounding mountains and fjords.

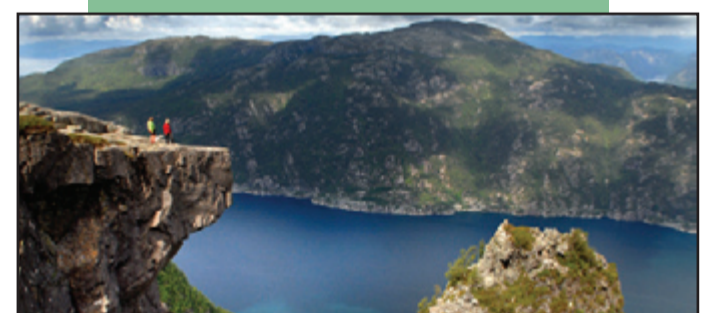

Leave the main road riksveg 13 in the roundabout at Sande (the ferry quay at Hjelmeland). Drive 1,5 km towards Vormedalen. The exit has a sign pointing towards Hagalid.

The road climbs steeply to Hagalid 300 meters above sea level. Make sure you park your car before you enter the farmyard. Follow the marked path through the farmyard, forest and up on the mountains towards the high, steep and spectacular Ullsvikjuvet and Skomakarnibbå.

Some parts of the trail are steep. The marked trail does not lead all the way to the crag. The hike from Hagalid to Skomakarnibbå and back takes approx. 5-6 hours. Altitude difference: Approx. 400 meters.
